

Llanbedr Community Council minutes on Thursday November 3rd at 7.30

Meeting in the hall but also with a zoom link.

Catrin S Williams translator on zoom.

At the start of the meeting - a report from David Young of Snowdonia Airoospace – an update of what's happening at the Camp. Delyth Williams also joined in with an update of the webpage (over zoom)

Update

He doesn't know anything extra about the access road, they still trying. They've had quite an interesting year. The "danger zone " has been implemented.

Do trials with drones – 4g and 5g with O2 service to help services like Mountain Rescue Team.

Early 2023 will see trials of drones from ship to land regarding wind energy equipment.

A spaceship in one of the hangers – To work remotely – helping the police, and ambulance services.

In the spring there will be trials with MOD re projects with noise levels.

Launching in March 2023 balloon.

Still doing training with Colleges such as Bangor and Aberystwyth,

Still doing radar trials.

There will be no sky diving here in Llanbedr.

The "land yaughting" and working with the Harlech car Rally Group will still take place. Also experience of driving expensive cars still happening. Potential for work in the department – "air traffic area".

Negotiations are underway for rocket launching.

One complaint they have received regarding noise, on going.

JTW questioned – that there was a fair amount of traffic coming and going from the Camp on some events. On one of the activity range, a lorry carrying equipment, smashed a wall near Talwrn Bach. They need to do more publicity when things happen at the Camp.

David Young – agree that more of this must be done, and give consideration to the Village and its inhabitants and regarding safety and speed limits.

No more comments, and ETH thanked him for his presentation.

Website – by Delyth Williams

Apologizing that the work had taken longer than she had thought. We had a look at the webpage, and it will hopefully be live by the end of the month.

She noted that there were some things in English only on it – such as 6 pages of Huchenfeld history. Passed that this was fine as no one had complained so far .

Need to provide an update of Councillors' names and contact details Eth – ready to transfer the details onto new web page

LV questioned whether it will be possible to provide a link to the community fb page. This is possible.

With entries etc DW is able to convert to pdf. So no need for The Clerk to do anything differently.

With Councillors emails – that gmail can be done, but not sure if there will be an additional cost for this?

The package with Wales 1 is currently gold says RW. Will the same package exist now?

DW will ask about this.

Thanked her for her work and everyone was looking forward to browsing the new webpage.
