Questionnaire done. How many took part in this?

Stating disappointment in the lack of communication. That the two County Councillors have also sought a site meeting.

JTW noted that the money has been received months ago for the Llanbedr works, but realises now Ardudwy's green corridor will also benefit. This is supposed to be Llanbedr's money.

That the traffic markers, security cameras, noise monitors and pollution should have been installed before summer holidays. Late August on them being installed. Such a misinterpretation of data.

Cllr AH noted that the road counters had been cut but now repaired. That's again a flaw in the data.

Meeting 3.8.23

A very constructive meeting . Request for Us to hold another meeting in October.

It was passed that all Councils re-discuss the financial situation in their September meetings. Recommend they continue to contribute until the end of March 2024. Give them more time at HAL to get organized, and get some grant awards back by then – 6 months.

Questions arising is HAL a private company or community led company. And are the Councils entitled to give financial contributions to private companies?

Environmental Policy – draft of this .

There are a few things that are not consistent regarding the policy. Need to consider not cutting some spaces and thus saving costs.
